Re: Insurance Claim and Damages

This email is to make you aware that the insurance adjuster and crew will be inspecting Hunter Valley beginning on Monday, June 18th. The first inspection will be brief as the adjuster will be simply spot checking to get an idea of the extent of the damage. You may hear inspectors on your roof and see various people looking at the buildings throughout the week.

Please do not report any damage to the inspectors or request that they look at your specific issue. Please trust that all areas of the buildings will be looked at in time. If you have interior damage or photos of exterior damage, please send them to me as soon as possible. To date, I have only 6 reports.

Please contact Debbie at SBB to report or email issues and damage:
